mhmdazmye@gmail.com

## Summary

---

A passionate Front End Developer with a good knowledge of HTML5, CSS3 and JavaScript Library such as React. prioritize to create a maintainable, reusable, and clean code.

## Experience

---

### **Indonesian Ministry of Communication and Informatics, South of Kalimantan Province | Kalimantan Selatan, Banjarmasin Internship/Student | 01/2021 - 05/2021**

Work with 4 of my friends to develop a web based application, a simple crud web to store, edit, and delete a Driver License. technology that we use is Html, Css, and Php. tho i don't have the file anymore, and i planning to re-create it with React. i'll post the link here once it's finished.

### **Playwatch - A Movie, TV Shows Libraries Web Based App (<https://playwatch-lime.vercel.app>)**

One of the mini project that I've been working on, i've been learning how to implement REST API provided by TMDB, making reusable React component, and optimizing web performance.

### **Zeitplan - Slicing Figma Design into Mobile Friendly Website (<https://azmye.github.io/ZEITPLAN-SLICING-UI/>)**

Converting a Figma Design to Website based on React.

## Skills

---
